

# Gemini Cleaning Systems Ltd

## ECO-400

**For printers with a print bed up to 342/342/200 mm**

## Genie encapsulated washing systems

After working closely with our distributors and their clients own very specific requirements regarding water supply and environmental issues we were the first company to offer a fully independent washing system with an integral wheeled water tank offering you a system that can be used anywhere when water/drainage services are difficult. Many companies are also very sensitive towards wasting water and the ECO-400 can save you up to 80% on your water usage.

At Gemini we feel that the genie ECO-400 machine offers every thing that the end user requires with

excellent value for money whilst still providing you with the very best production line quality machines capable of dealing with any size prints produced BELOW the Stratasys 500 range of printers, a drop down front door with safety interlock gives unravels access to loading the prints.

Of course we only use the very best industrial grade motor-pump units, trouble free simple to operate controls, two fantastic bright led internal lights, tool less nozzle couplings, with a simple internal pressure selection valve, a fixed nozzle point to enable two handed manipulation of the print and an industrial two speed wiper system. we fit a large filter basket into the internal water tank allowing long periods of use without the need to clean the filters

Gemini were the first company to offer the fixed nozzle option as standard, providing you with the very best cleaning option with fantastic control and manipulation of the print.

The two flexible hoses options are unrivalled in allowing you to get into the very deep recess of the print, the 5 mm pipe will go into very long internal channels with ease.

Gemini were also the first company to offer multi function tool less nozzle and flexible hose changing .

**This machine has a 100 lt mobile water tank allowing for long use between re-fills and will save you over 80% water consumption.**
