

# Gemini Cleaning Systems Ltd

## Bespoke rinsing/drying stations

As a direct result of witnessing clients rinsing their FDM printed parts in tiny sinks in the kitchen or the toilets we have now produced a selection of purpose built plastic sinks to cover all printer types up to the Objet 1000 and the Fortus 900.

Rinse 1

Rinse 2

Specifications both rinse units are made from polypropylene and stainless steel framework

Outside dimensions 600X700X1400mm w-d-h

985X1100X1200mm w-d-h

Sink internal dimensions 550X550X460 mm

970X970X680 mm

Drain pipe outlet 32mm

Cold water inlet 3/4" male fitting (hot water can also be fitted if requested)

A suitable flexible shower head is provided as well as large splash backs and a filter screen is fitted to the outlet to prevent any blockages.

The sinks can be fitted with a waste Pumping Systems enabling the fitment of a sink into previously unsuitable areas.
